Approved—

W. H. ASPINWALL,
CHARLES PLUMER,
GEORGE A. STILES,
Selectmen of Rollinsford.

The undersigned, Auditors of Town Accounts, have examined the books of the Secretary and Treasurer for the year ending February 28, 1889, and find all cash entries sustained by appropriate vouchers, and castings correctly made and footings agree.

NATHAN HILL,
W. R. GARVIN,

Auditors.

REPORT OF THE SCHOOL BOARD

OF THE
TOWN OF ROLLINSFORD,

For the Year Ending March 12th, 1889.

The School Board of the town of Rollinsford have attended to their duties, and submit the following report :—

DISTRICT NO. 2.

Miss Celia A. Wentworth of Rochester commenced the spring term of Sullivan school, but resigned after teaching nine days, on account of sickness in her family. Miss Mabel Colcord of Candia succeeded her, and continued to the end of the summer term, when she also resigned her position, and Miss A. C. Hough of Great Falls kept the winter term.

The spring term of school at Quamphegan, was under the care of Miss Mabel E. Wheeler of this town, when she resigned to take charge of a school in another State. Miss Bessie Ham of Dover succeeded her, and taught both the summer and winter terms.

Miss Lizzie M. Warren of this town instructed the Rollins school throughout the year, and Miss Clara W. Garvin, also of this town, labored through the year in the Turnpike school.

All of these teachers were competent and qualified for their work, yet all did not meet with equal success. We are not to look for perfection in teachers any more than in any other class of people, and if any think that some of ours have erred in their

methods of discipline, or in any other way, admonish them in a spirit of kindness, and all will be right in the future. In those schools where parents have given their influence in favor of the teacher, harmony and good order have prevailed, and the advancement made by the pupils has equalled that in any preceding year; and even in those schools where dissatisfaction has existed, we noticed that those pupils who were in sympathy with their teacher, were earnest workers, and, as a result, made satisfactory advancement in the studies pursued. If the others failed to make equal progress, where does the fault lie, with teacher or scholar? A question not hard to answer. Where unhappy feelings exist toward a teacher of any school, from whatever cause or motive, that teacher has hard, uphill work, and her labor though doubled, would not equal in profit to the school in which she may be placed, to what it otherwise might, if the circumstances were reversed. A very common teacher, placed in a school of children where the parents are in sympathy with all concerned, will accomplish more, do better work, and be decidedly more profitable to the district, than the most skilled and accomplished instructor otherwise could be, though exerting double the amount of energy and labor to perform the required daily duties incident to the school room.

There is this fact that no careful and thinking observer can fail to notice, that children are the exact exponents of their parents in regard to their feelings, either of kindness, or unkindness, which they cherish toward those under whose care they are placed. That teacher has but little knowledge of human nature, who has not the ability to read at once, from the countenances and acts of her pupils, in what estimation she is held by their parents. Children are incompetent to judge of the merits or demerits of those who instruct them, and no parent who acts wisely and prudently, will base his judgment in relation to the fitness or unfitness of the instructor, for her work, on the mere

caprice or evidence of children, whose minds are as yet, not properly developed to judge what is, or what is not for their best interest. What mechanic, artist, or craftsman of any kind, would be willing to have the merits of his labor judged and reported to the community, on the authority and knowledge of school children? Then should we not accord to the teacher of our children, whose work is far more important, and infinitely more delicate than that of the most skilled mechanic or artist, the same privilege in presenting their work to public observation, that we would desire to have done for that of our own? Is it prudent, is it wisdom to believe every story of disaffected children? Would it not be acting very wisely to go to the school room yourselves? Not only once or twice, but often; the teachers will welcome you with pleasure, and then you will be the better prepared to judge correctly, whether they are earnest and faithful servants in the interest of those committed to their care.

A. W. PIKE, }
M. R. GARVIN, } School Board.

ROLLINSFORD, N. H., March 12, 1889.

REPORT OF THE
Superintending School Committee,
FOR SCHOOL DISTRICT, NO. 1,
IN THE TOWN OF ROLLINSFORD FOR THE YEAR
ENDING MARCH, 1889.

We see no reason why we cannot say that our schools the past year have been conducted with the same good management, and the results obtained are as good and satisfactory as in the years past. It seems unnecessary for your committee to multiply words to make an extended report, as all interested in the schools have a good chance to judge for themselves.

Miss Nellie F. Lord has taught the primary school with an average attendance of 63.

Miss Anna L. Wentworth taught the intermediate school the first three terms in the year; the last term, on account of sickness was taught by Mrs. Mary Farnham, who has kept the school up to its excellent standard. Average attendance for the year 33.

Mrs. Sara F. G. Nowell, in the grammar school, has had an average attendance of 24, and Mr. H. L. Allen, in the high school, an average of 24 also.

O. S. BROWN,	} Supt. School
